ROYALTIES

To the Editor of The Times:

Sir,—The argument that capital for railways cannot be attracted without extraordinary inducements and privileges, is fallacious, so far as the Kootenay Lake district is concerned, because as is well known, a responsible company offered, lately, to make, and to complete this summer, a much needed 65 miles of railway there for a grant of land per mile less than that proposed to be given in the "Railway Aid Act," and without imposing any royalty burden on the mining community. On its being suggested to the company that they might try to get mining royalties, the answer was given that they would have nothing to do with an impost so burdensome to mining, and so unpopular among miners. Notwithstanding this pregnant fact, and the emphatic protest of the quartz mining community, they are to have the royalty system forced on them. Why? I will give the answer in a sentence so far as that district is concerned. It is because grants of land along a line from Farwell via Nelson to the Lower Kootenay river will in all probability include, in farmed-out royalty areas, the unappropriated portions of at least one, and it may be both of the greatly promising Toad Mountain and Hot Springs camps, which are in a mineral zone of proved value. That is the prize which the royalty advocates, or those behind them, seek in Southern Kootenay to secure, and it is worth contending for because rich mines will be worked there, though royalties will discourage mining in general and tend to prevent the development of low grade claims. And this prize—this great taxable reserve now in possession of the province—it is proposed to give away for absolutely nothing—under no necessity—capital for railways, as proved above, being ready to flow into that part of the province without the aid of mining royalties. Will any royalty advocate, in the House, or out of it, attempt fairly to grapple with this argument? The case may be different in the territory to be traversed by the Ashcroft and Cariboo, and the Canadian Western railways. The comparative remoteness—the topographical peculiarities of that territory may justify an experiment there which is uncalled to, and uncalled for, in Southern Kootenay. May I add a word on another subject—"humbly praying," on my bended knees, that Mr. Speaker will put the most favorable construction on my words, when I state that the petition which he "ruled out" is, as to form, copied word for word from petitions in the archives of his august office, and that he is bound by precedents when the House has not adopted a rule to the contrary. But I tremble for my work, or in the fear that I may be punished for my temerity, by an "electric" shock.

Your obedient servant,
G. M. Sproat.

Fire at Seattle.

A fire broke out in West Seattle early yesterday morning, and several large blocks were burned and considerable damage done. The property destroyed was all outside of the regular fire limits, and the structures were wood.

Roller Mills in Canada.

There are now thirty-one roller mills, according to the *Commercial*, in the hard wheat region of Canada. There are two mills at Winnipeg, with an aggregate capacity of 1,400 barrels daily; on the line of the Pacific, east of Winnipeg, one mill at Keewatin, with a capacity of 1,600 barrels daily; on the same line, west of Winnipeg, roller mills (one each) at Portage la Prairie, Carberry, Brandon, Oak Lake, Virden, Moosomin, Wolseley, Indian Head, Qu'Appelle station and Regina; on the Manitoba and Northwestern line, one mill at Minnedosa, one at Shoal Lake, one at Birtle, one at Milford, and one at Rapid City; on the Pembroke branch of the C. P. R., one mill at Gretna, one at Morden, one at Boissevain, and one at Crystal City; on the Southwestern branch of the same railway, one mill each at Treherne, one at Stonewall on the branch so called; one at Plum Creek, on the Souris branch; and mills (one each) at Balmoral, north of Stonewall; at Assessippi, Russell county, Man., at Fort Qu'Appelle, north of the station of that name; at Moose Mountain, south of Moosomin; and at Prince Albert, in Saskatchewan territory—this last being the most northerly roller mill on this continent.

The Reporters Doomed.

The newspaper reporter, says the Seattle *Press*, is a good deal of an fabmaelite. His business is to expose crime, lay bare folly, show up fraud. As a consequence it sometimes seems as if his hand were against everybody and everybody's hand against him. Now he is doomed. Schweinfurth, the self-styled reincarnated Savior, who has set up a clapboard heaven near Rockford, Illinois, has been so mercilessly ridiculed by the reporters that he at length pours forth upon them his bitterest wrath. Quoth he: "They are the damnablest blackguards of hell, and the hour of their retribution is at hand. At a moment when they wot not the mouth of an everlasting perdition will open, into the yawning abyss of which they will be plunged to gnash their teeth and send up to the unheeding ears of an outraged Lord their wails of anguish throughout all eternity." But, comments the *Press*, candor compels us to say that while many of the "boys" deserve a better fate, that here and there may be found one upon whom we shall waste no tears. He who describes a fire as "a holocaust," who sees in every wayfarer a "prominent citizen," and who tells of "another old landmark gone," need look for no pitying glance from us, even though the flame which curls around his blistering bones be "brilliant in the extreme."

Mails From England.

The mails from Europe have been very irregular of late, owing to the extremely severe weather on the Atlantic. Letters and papers of Saturday, the 29th ult., arrived Monday night on the 16th day, from London, or from Edinburgh, which is within a day equal to the quickest service in the finest weather of the summer. But as showing the late irregularity, in the Atlantic service, there came yesterday letters of Tuesday, the 25th, of Wednesday, of Thursday, of Friday, and of Saturday, the 29th, all in one batch. Four different steamship companies brought these letters, viz: The White Star, the Allan, the North German Lloyd's, and the Cunard; but it is almost needless to say that the Cunard, which leaves Liverpool every Saturday, *always* beats all other lines in bringing letters to Canada. The Allan line which invariably brings Thursday's letters has been extremely slow lately, generally 6 days behind the others.

A physician in charge of a well known American asylum for the care of the insane recently said to the writer: "There is one infallible test either for the approach or the presence of insanity. If the person whose case is being examined is seen to make no use of his thumb, if he lets it stand out at right angles from the hand and employs it either in salutation, writing, or any other natural exercise, you may set it down as a fact that that person's mental balance is gone. He or she may converse intelligently, may in every respect be guarding the secret of a mind diseased with the utmost care and cunning, but the tell-tale thumb will infallibly betray the lurking madness which is concealed behind a plausible demeanor."

THAT THROUGH LINE.

The New York Herald Says the G. T. and N. P. Will Build to Victoria.

Henry Villard's Grand Scheme to Expend $50,000,000 in the Northwest.

New York, April 16.—The *Herald* says: It is settled that there will be more railway building this year in the Northwest Territories than for several years. A prominent gentleman who has just arrived from London, where he went to confer with Grand Trunk Railway officials in regard to a line from Winnipeg west to Victoria, B. C., via Seymour Narrows and the Yellow Head Pass, the route originally selected for the C. P. R. by the Mackenzie government, says that in conversation with the secretary of the Grand Trunk that gentleman made a positive assertion that the surveys to the Canadian Northwest from Winnipeg to Victoria would be commenced this spring. He said the Grand Trunk Railway and Northern Pacific would unite to build the road, and build it, too, without any unnecessary delay.

VILLARD'S PLANS.

St. Paul, April 16.—Henry Villard was honored with a banquet at a leading hotel here last night, by the Twin City's Commercial Club, composed of leading financiers of St. Paul and Minneapolis. After the banquet Mr. Villard unfolded his big scheme. He said that within the next four years the Northern Pacific will expend over $50,000,000 in the Northwest, chiefly in Montana and Washington, and at the end of that time they will own 3500 miles of main line fully equipped. Several million dollars in erecting gigantic electric plants in the twin cities will be expended also.

AMAZONS.

Philadelphia, April 16.—About one hundred Italian women this morning attacked a force of Italian street laborers, who had taken the place of their husbands and brothers on street work. The police were compelled to arrest twenty women before peace could be secured.

LIBEL—PAY REDUCTION.

New York, April 16.—E. L. Godkin, editor of the *Evening Post*, was arrested to-day on a charge of criminal libel on the complaint of Peter Mitchell, a lawyer. Godkin gave bail to await examination.

The statement is current this morning that the United States Express Company has decided to reduce the pay of its employees ten per cent. on May 1st. President T. C. Platt refused to affirm or contradict the rumor.

A BOODLER'S CHEEK.

New York, April 16.—Ex-Alderman Thomas Rothman, one of the aldermanic board of 1884, known as the famous "boodle board," presented himself at the district-attorney's office to-day and asked to be informed as to whether there was any charge against him in connection with his career as an alderman. He was informed there was no indictment against him. He told the district-attorney he "could be found in the city at any time, as he intended settling down here again." At the time of the investigation into the official acts of the aldermanic board of 1884, Rothman sold out his business and sailed for Germany where he remained until now. He asserts he visited Germany for his health.

JULY PORK AND MAY WHEAT.

Chicago, April 16.—Great excitement prevails on Exchange to-day. A crowd in the "pit" commenced to gather early and there was a sudden collapse, as the demand was extremely light. May wheat opened at 93 cents and soon after was sold down at 86 1-2 cents. Provisions opened "bearish" with a general desire to sell, while prices were high. May pork opened at $12.50, and soon fell to $12.10. July pork opened at $12.70 and declined quickly to $12.30, the demand not being very good.

CHINESE CENSUS.

Washington, April 16.—In the Senate to-day numerous memorials were presented for and against the passage of the Chinese Census Act.

The House this morning passed the naval appropriation bill after the insertion of the clause stricken out by the committee of the whole providing for three new battle ships.

CLOCKMAKERS STRIKE.

Chicago, April 16.—The building trade is still at a standstill. This morning the striking carpenters fulfilled their promise to tie up the town. Another strike was added to the list this morning by the clockmakers who work at Siegel Bros. refusing to resume work and demanding a removal of their foreman on the ground of his being obnoxious.

STOPPING THE CHINESE.

San Francisco, April 16.—Collector of port Phelps to-day received an order from the Secretary of the Treasury, Windom, to stop Chinese in transit and send them back to China if he has any reason to think they intend to enter the country.

MATRIMONIAL.

New York, April 15.—The *Herald* says: Miss Minnie Davis, daughter of the late Jefferson Davis, will soon marry Alfred Wilkinson, a young lawyer of Syracuse, and grandson of the famous abolitionist, Samuel May.

NARROW ESCAPE.

San Jose, Cala., April 15.—As the Monterey express left the station here for San Francisco at 8:30 this morning, an open switch at a bridge a short distance from the depot was discovered by the engineer too late to avert an accident. The engine and three cars left the track and crashed on to the bridge, jumping to the side where there was another track. Had the cars left the track on the opposite side the train would have been thrown into the creek. The three coaches tipped nearly over. The train was crowded with passengers, but no one was injured. The engine, coaches and bridge were badly damaged.

DIED ANYWAY.

Boston, April 16.—Early this morning P. Magier, a fisherman, attempted to hang himself with a rope from a window of a chamber in the fourth story at 216 North street. The rope broke and he fell to the sidewalk and was killed.

LEFT FOR OTHER PORTS.

Butte, Mon., April 16.—It leaked out today that Assistant Postmaster Jones, who has been absent from his office a few weeks, is a defaulter to the amount of $1950. He was appointed by Postmaster Evans when latter took office, being highly recommended by the people in Lansing, Michigan. He has not been at his room for a week and the matter has been put in the hands of the police. He has apparently left town.

CHANGES IN SUGAR SCHEDULE.

Washington, April 16.—Republican members of the ways and means committee made a change in the sugar schedule by providing that sugar shall be admitted free, and allowing a bounty of 2 cents for every pound produced in this country. The change was made at a late hour last night, and in consequence of it, the tariff bill with a majority and minority report on it will not be submitted until late this afternoon. Mr. Carlisle was informed of the change this morning and spent several hours modelling a minority report to suit it. A protest, signed by the chairman of the sugar planters' delegation was filed with the committee this morning. It states that the sugar men are not in favor of a bounty and do not desire any.

Washington, April 16.—A bill was introduced to reopen the Pennsylvania navy yard for the construction of vessels.

O'Neill introduced a bill to erect an equestrian statue of General Grant in Washington.

Mitchell gave notice that on Tuesday next he would call up his resolution providing for the election of United States senators by a vote of the people.

Bills were passed for the construction of a bridge over the Mississippi river at Galesburg, Ills., also a House bill granting to the Palouse and Spokane Railway the right of way through Nez Perce Indian reservation of Idaho.

TIME'S CHANGES.

New York, April 16.—The *World's* Washington special satirizes C. P. Huntington for his declaration against mixing politics with railway business and reviews extracts from the famous Colton letters to show, as it says, what a change has been wrought in his views on this subject.

SILVER COINAGE.

Washington, D. C., April 16.—The western Republicans on the silver committee are threatening that the east must take the compromise they offer, or the free coinage bill will be put upon us and railroaded through both houses.

WHAT OFFICERS APPRECIATE.

Messina, April 16.—The officers of warships now in port here, including those of Boston and Atlanta, of the American squadron of evolution, were last evening entertained at a fete given in their honor by the prefect.

TARIFF BILL.

Washington, April 16.—The tariff bill has been reported to the House and referred to the committee of the whole.

POLITICIAN DEAD.

Minneapolis, Minn., April 16.—A telegram this morning from Nassau, Bahama islands, via boat to Jacksonville, Fla., brings news that Eugene M. Wilson of this city, died there of malaria fever April 10th. He was a Democratic candidate for governor in 1883, and was a member of Congress in 1868.

BALD KNOBBERS.

Attempt to Kill an Old Man—His Plucky Son.

Kansas City, April 16.—News reached here this morning from Donophan, Mo., of a raid last Saturday night by the "Bald Knobbers." The first house reached in their rounds was that of Ephraim Holland, an old man who had for some unknown cause given offence. Four men wearing heavy masks went to the door and demanded admittance. This was refused, and while one member of the gang held the horses, others battered the door down with a heavy log. The old man, made feeble by resistance, was knocked down and his assailants began kicking and pounding him while he lay at their mercy. A 14-year-old son of Holland was aroused by the struggle and taking a shot gun from the wall fired at the men who were beating his father. One of the gang dropped dead and another attempted to shoot the boy, but before he could do so the boy fired again and mortally wounded him. The others then fled and the wounded men crawled out to the gate where they lay till morning groaning. Just at daylight when help came they died. The neighbors took off the masks of the dead men and found them to be near neighbors of Holland's. One of them, Edward Gilliam, Jr., is the son of a well to do farmer, and the other was Alexander Gatewood, who has the reputation of being a general bad character in the neighborhood.

ABOUT THEIR WIVES.

A Discussion of Merits and Demerits of Wives Ends in Murder.

Louisville, April 16.—A sensational murder occurred near Springfield, Ky., this morning. While quarreling over their wives Abraham Kelly shot and instantly killed Sam. Logan, a well known citizen of Springfield. Both men were but recently married. The men talked of their wives as newly made husbands are wont to do, and finally from bantering on the respective merits and demerits of their wives, the joking gradually changed to bitter remarks. Kelly then went away but in a short time he returned with an army musket, and walking towards Logan he advanced to within 100 yards of his victim, when without a word he fired full at Logan, who fell with blood flowing from his wounds. Kelly escaped to the woods and up to to-night has not been captured.

THE CAPITAL.

Warrant for New Westminster Election—Proposed Change of Name.

Special to The Times.]

Ottawa, April 16.—J. J. C. Abbott intends moving in the senate that the name of the Northwest Territories be changed to the Western Territories of Canada.

Jamieson, who is chairman of the license commissioners, and supposed to have Liberal proclivities, will accept the nomination from the Equal Rights party for this city.

Further evidence was taken in the privileges and election committee to-day. Dalton McCarthy was examined, but threw little new light on the matter. Laidlaw, who was an applicant for a timber limit which was overlapped by Adams, was also examined. The area of his limit was so changed that there was not one stick on it of timber.

The speaker of the House said that the warrant had been issued for an election to fill the New Westminster vacancy. No dates have yet been fixed upon.

Messrs. Earle and Prior had an interview with the premier relative to mining machinery. The members pointed out that the industry would be seriously handicapped if one part of a machine had to be purchased in Quebec, another part in Ontario, and still another part in the States, and they decided it would be best to import the whole outfit free if it cannot be purchased as a whole in the Dominion. Sir John said collectors of customs must interpret the law in the most liberal manner.

The government emphatically declines to relax the quarantine regulations to enable American cattle to enter Canada in bond and be slaughtered for export.

Canada will be represented at the Jamaica exhibition next year, and space has been applied for.

Closing Out Sale.

Mrs. Jas. Russell will sell at cost her entire stock of fancy goods, comprising pon pons, Briggs' stamping patterns, embroideries, laces, etc. Business for sale, 125 Fort street.

Never Were Better.

Some of the most unique designs in spring cloths, for gentlemen's wear. Novelties of spring suitings, displayed for first time in Victoria by Campbell & Simpson, the fashionable Government street Tailors.

One dollar will buy a box of 8 cigars of Fonday's White Castle Soap.

EUROPEAN NEWS.

Terrible Accident Near Rome—Three Hundred Girls in a Falling Factory.

Bismarck Still on the Watch—Preparing for a May Day Demonstration.

Rome, April 16.—The roof of a weaving mill at Bergamo fell this morning. Of 300 girls at work 17 were killed and many seriously injured.

IN OLD MADRID.

Madrid, April 16.—Thus far all efforts to control the fire which broke out in the city gas works last night have been unsuccessful and the fire is still burning. As a consequence, Madrid will be in darkness to-night as it was last night.

HUGE FRAUDS.

Bradford, England, April 16.—A sensation has been caused here by the arrest of Francis Vubber, the head of the dyeing establishment of Lister Co., limited, whose silk works are the largest in the world. It is alleged he committed frauds amounting to thousands of pounds. It is expected other arrests will follow.

INTENDS TO TALK.

Hamburg, April 16.—The *Hamburger Nachrichten* says Bismarck does not intend to assume the attitude of a faultfinder towards the government, although he will never refrain from expressing his opinion on momentous occasions.

AFRICAN EXPLORERS.

Zanzibar, April 16.—Additional porters to the number of 260 have left here to join the caravan which Emin Pasha is fitting out at Bagomoyo for the expedition to the interior. Major Wissmann is equipping five other caravans; one is intended to proceed to the country north of Lake Tanganyika.

THE REDISTRIBUTION BILL.

New Westminster Very Indignant—The Last Straw.

New Westminster, April 16.—The Redistribution bill is the absorbing topic of conversation here. Public sentiment is strongly hostile to the measure. It is considered utter disregard is shown to deal fairly with the different constituencies; that outlying sections of the Mainland, which are disposed to "side in" with Victoria, have been given a larger proportion of representatives than they are entitled to, two or three seats that should be held by coast cities and districts; and that the government has acted imprudently, and may be open to the charge of gerrymandering in the matter. The new measure has broken the camel's back, and will be the means of hastening to bring about an inevitable and necessary change in the government of the province.

OUTRAGEOUS INJUSTICE.

Citizens of Vancouver Will Hold a Mass Meeting.

Vancouver, April 16.—The Redistribution bill is being hotly discussed here and strong indignation is expressed against the government. Citizens consider it the most outrageous piece of injustice ever legislated in a civilized country. Yesterday preparations had been made to hold a mass meeting, had the bill been brought up, but decided to await results. An indignation meeting will likely be held to-night. It is thought the government supporters are politically corrupt and dead to all sense of fair play. A few still entertain a vague hope that the bill will be vetoed, it is so glaringly unjust.

GERMAN AFFAIRS.

Movement of Socialists for a May Day Demonstration.

Berlin, April 16.—The *Volksblatt* has published a manifesto adopted at a meeting of Socialist delegates held at Bale, Switzerland, last Sunday. The manifesto recommends the observance by the workingmen of Germany of May 1st, provided assurance can be had that no attempt will be made by the police to provoke a collision. The manifesto also recommends that the day be observed as one of rest from toil, and that meetings be everywhere called to petition the Reichstag in favor of eight hours for a day's labor.

An appeal signed by every Socialist deputy to the Reichstag, except one who is imprisoned, has been addressed to German workingmen. The appeal calls upon the workingmen to avoid that conflict with the authorities which their opponents will force on the occasion of the May day demonstration.

The *Tagblatt* says Chancellor Von Caprivi has forbidden ministers other than German officials to communicate official intelligence to newspapers. Any information which it is desirable to publish will appear in the official journal, named the *Reichsanzeiger*.

PERSONAL.

Items Telling of the Movements of Well Known Persons.

Mrs. Joseph H. Thain arrived from the mainland last evening.

F. Bourchier and wife returned from Vancouver last evening.

Gideon Robertson was among the arrivals from Vancouver last night.

M. M. English and J. A. Laidlaw came over from the mainland last night.

Wm. Hammond and daughters returned last evening on the Islander from their eastern trip.

Hon. Justice Walkem and Mrs. Walkem were passengers by last night's Islander from New Westminster.

Thos. Ladner, G. A. Keefer, J. A. Sayward W. D. Ferris, sr., and C. D. Rand were amongst the Islander's passengers last evening.

SPORTS AND PASTIMES.

A Resume of Events in the Sporting Arena.

W. H. Quinn, the wrestler, arrived yesterday from Seattle having completed arrangements for a match with D. H. Cameron, to take place in Seattle on the 24th of the present month. The match will be catch-as-catch-can, best two in three, for a purse of $500, the winner to take the entire purse. Mr. Quinn says he is in excellent condition. While in San Francisco, Quinn endeavored to secure a match with Joe Acton, who was willing to entertain the proposition, but the Olympic Club, of which he is instructor in wrestling, refused to permit him. Quinn will go into training here, while Cameron will prepare on the other side.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY

ITS HEAD IN THE SAND.

It is not a little extraordinary that in the face of the Pacific scandal which forced Sir JOHN MACDONALD from office, the divers other crooked transactions peculiar to his administration, the RYKERT steal, the MIDDLETON loot, the fact that even DAVIN has been compelled to stigmatize Sir JOHN's alleged advisers an assemblage of "antiques," we say, it is not a little extraordinary that in the face of these notorious facts, the Colonist should still hold that the "come-let-us-reason-together style of argument" is any longer available, and affect to deprecate the strong language with which we have addressed ourselves to Ottawa. And especially is it extraordinary of the Colonist to assume this attitude when we bear in mind that that paper has had not a little fault to find with the treatment this province has experienced at the hands of the Federal government. Col. PRIOR had to make a special journey east for the purpose of rectifying Tory blundering, and it does not require much of a strain on the memory to recollect that the Colonist plaintively howled over the ambiguous wording of the clause relating to the admission, duty free, of mining machinery. However, it is worse than useless to discuss matters of this description with the Colonist. It has its head in the sand. It declines to see. We will therefore conclude by quoting the Columbian anent the withdrawal of the mail subsidy:

But is it any wonder, it is pertinent to inquire, that we are treated thus, when the Pacific province has voluntarily tied itself hand and foot in the absurd, slavish, and corrupt custom of returning a "solid six" pledged, either expressly or tacitly, to support the "party in power" for the time being? And when our members occasionally punctuate their periods of silence by slobbering all over the administration (*vide* telegraphic summary on Thursday of Mr. Barnard's recent effort in the Commons), licking the hand that smites, so to speak, and telling what fine things (?) the N. P. is doing for British Columbia, what a fine fellah the government is anyhow, and that the infatuated province would continue to send its "solid six" what'e'er might betide?

Taffy is all very well when it is deserved, but even then some discrimination is required in laying it on. But a different sort of a "stick" must be wielded by British Columbia's members at Ottawa if this province is to command any respect or exercise any influence in the Dominion councils—if it is to get a moiety of its rights even. It is high time the "solid six" compact, expressed or understood, was broken up; it has done nothing but discredit to our spirit and judgment, and injury to our interests, in the past, and will continue to do the same in the future.

Let us prepare now to turn over a new leaf altogether, and send as representatives to the federal parliament men pledged to hold aloof from servile party affiliations—men knowing the wants of the province, having its interests at heart, holding a firm conviction as to its rights, and determined, above all else, to secure these.

THE CONSTITUTION ACT.

The long looked for act to amend the Constitution Act is before the House at last. The government, after months of travail, have been delivered of the great political measure on which the main interests of this session of the House has hinged. And a puerile creature it is, too, when we consider the jealous care with which it has been hidden from public view. Nor shall we suppose that the general public, particularly that of the Mainland, will discover anything in this measure which will correspond with their deepest hopes. Vancouver doubtless, will be disappointed and so will Yale. If, however, the Mainland finds reason to growl, it must lay the blame, not to the Island, but to their own members. When Mr. BEAVEN moved the amendment to the effect that the second reading of the bill be postponed until the 30th of April, among the thumbs which negatived the motion were those of the gentlemen from Lillooet, Cariboo and the member for Yale, Mr. MARTIN. If, therefore, the Mainland feels that it has been slighted, it must call these gentlemen to account. Had they proved obdurate, a modification of the government programme would have been found necessary. But it may be that the Mainland will be perfectly satisfied with the government programme. It has been given 17 members to 16 for the Island, and as the distribution of wealth and population stands at present, to ask more would be the signal for a fight on purely sectional lines. A contest of this kind we should deprecate. In considering the interests of the province we cannot dissociate the Island from the Mainland. They must sink or swim together. The man who would build up the Island to the great hardship of the Mainland, none would reprobate sooner than the TIMES and vice versa. We must have legislation on lines intended to subserve the interests of the province in the aggregate. What Victoria wants or what Vancouver wants is not the question. It is true that their wants must be considered but their wants must not be considered in that sense which would prove to the respective prejudice of either. In truth, it has seemed to us that there is more buncombe than anything else in this matter of increased representation. The interests of the province do not lie so much in a House full of representatives, as in honest government. When the government shall cease to bribe constituencies with their own money, or when constituencies shall cease to be bribed by such methods, government, then, will have to stand on its merits, and representation then, will be a matter of secondary concern. Whenever the time shall come when the province shall have a government by and for the people, instead of a government by and for the government, there will be no occasion for sectionalism. The constituent parts of the province will each receive their just dues.

EDITORIAL NOTES.

The legislature, sometimes called the tool of the government, after frittering away its time for nearly three long, weary months, has been suddenly seized with an uncontrollable fit of industry. It is so busy now it has not time to sleep, but with bleared and sunken eye may be found grinding away at the legislative mill far on into the hours of the morning. "Honest JOHN" declares that "we must push on," and his cronie, THEODORE, echoes his statement. A measure, sometimes called the Redistribution Bill, sometimes An Amendment to the Constitution, the most important measure of the session, has yet to be brought before the House, and before that reaches the light of day it is expected that the haste of the government will be worked up to the pitch of excitement. The present government is always in great haste when any very important measure has to be considered.

In all legislation emanating from the government, in which the sole object is to make the rich richer and the poor poorer, the Colonist has endorsed it without qualification. In order to increase the revenues of the rich, in order that capitalized institutions may be in a position to ceaselessly grind their less fortunate fellow creatures, share in the profit of the sweat of their brows, it is preached that railways not only are indispensable to the development of the mining industry in this province, but they must have a royalty, too, on the bare product of the miner. Tribute! tribute! ye sons of toil, pay us tribute! Serfs, what do we build you railroads for? Put up; divide your earnings with us. What right have you to the lion's share of the product of your hands? And there are men in the House, and there are newspapers, which will support such a measure as this. Gentlemen, you are flying in the face of providence. Such legislation as this only confirms BELLAMY and HENRY GEORGE. If you pass the royalties clause you assist the wavering Georgite to become an avowed apostle, you put arguments into the mouths of the Socialists. But you cannot if you are too venal; nor can the Colonist, either, because it is too slavish.

CANADIAN NEWS.

Items of News from Various Canadian Points.

James L. Hughes, public school inspector, formally accepted the nomination of the Conservative Association of Peel for the Ontario legislature.

A. E. Cameron, head miller of the roller mill at Carberry, Man., had both his hands taken off by being caught in the rollers, and mangled above the wrists. He came from Iroquois, Ont.

Rev. Mr. Willoughby, better known as Father Willoughby, is dead. Father Willoughby has been in active service in connection with the Methodist church in Brantford section, Ont., for more than fifty years.

A white and dry skeleton was found near Niagara Falls at the base of a precipitous hundred-foot bank of the Niagara river. The clothing was in a fair state of preservation, and an inquest will be held. The skeleton is believed to be that of Robert Thompson, who disappeared three years ago.

"MOTHER, FORGIVE ME."

Fifteen-Year-Old Annie Leon's Last Words Before Suiciding.

Little Falls, N.Y., April 13.—The waters of the Mohawk are bearing down stream the corpse of Little Annie Leon, the 15-year-old daughter of Jacob Leon. Every circumstance points to suicide. The girl's cloak and hat were found on a rock by the riverside last night. In the pocket of the cloak was a note containing the words: 'Mother, forgive me!'

Annie had worked as usual all day yesterday in a knitting mill, but was noticed to be somewhat melancholy. Several of her associates saw her writing a note, her face being flushed, and at times she would burst out crying. At 6 o'clock, finishing her day's labor, she notified the superintendent he should give her machine to some one else, adding that she would not need it again. She went home with an intimate friend to supper. She hurriedly left the house about 7 o'clock, saying she was going to her sister's. This was the last seen of her alive. The river has been searched for her body, but the water is high and the river a raging torrent. It is thought the body has been carried several miles from the village by the swift current.

The Extinction of the Kangaroo.

Australia is likely before many years to have no kangaroos except in its museums. From the reports of the various stock inspectors, it was estimated that in 1887 there were 1,881,000 kangaroos, but in 1888 this number fell to 1,170,000. The chief objection to the adoption of measures for the effectual protection of the marsupial is his vigorous appetite. One kangaroo is said to consume as much grass as six sheep, a fact to which sheep farmers are painfully alive. It is curious to learn, however, that if the kangaroo is likely to be exterminated, a new introduction, the wild buffalo, has found a home in the plains of Northern Australia, where it is now to be met with in vast herds. The animals, which are said to be of extraordinary size, and to possess splendid horns, are apparently, the descendants of the first buffaloes which were landed at Port Essington, in North Australia, about the year 1829.

Coal News.

Coal at Vancouver has been raised to $9 per ton while in Victoria it remains at the same old price. The Central Coal Yard and the Rock Bay Coal Yard have been merged into one and hereafter will be carried on under the name of the Central Coal Yard. Orders to be left at 90½ Government street.

No Dust.

There is no such stove polish as the "Nonesuch." Only 20 cents per bottle. Ask your grocer for it, or at Geo. Phillips', No. 152 Government street.

An Arkansas youth has just committed suicide, as he explained in a note, "prompted solely by a desire to explore the great hereafter." He was a fool. Had he lived out his appointed time he would have known a great deal more of this world and just as much of the next.

The Canadian millers are unable to hold their ground in the markets of Newfoundland, where they have to compete against American flour on equal terms, no duty being imposed upon flour imported into that colony. Why is this? Is it not because the cost of producing flour in Canada is so greatly enhanced by high taxes upon the millers' raw materials that they cannot compete successfully against foreign rivals in a neutral market? Newfoundland imported 278,000 barrels of flour last year, and of that quantity 268,000 barrels came from the United States.

HUMBLING AN AUTOCRAT.

Boycott Against a Cook Which Finally Proved Successful.

The autocrat of the seaside resort is not the man with his millions, but the hotel cook. The clerk in the office may imagine that he owns most of the earth, and the head waiter may feel that he has a warranty deed of the remainder, but when you comb right down to facts the boss of the kitchen is the boss of the ranch. He is the unseen power behind the throne to which all bow.

At our hotel the soup had invariably been seasoned so high with cayenne pepper that not one out of ten could more than taste it. The same was true of the deviled clams. One day I made a kick and in five minutes I had half a dozen guests with me. We interviewed the landlord and his reply was:

"I have nothing to say about it. You must go to the chief cook."

We sought an interview with that magnate. He was a colored man, with the dignity of a Roman senator. We made our complaint, and he replied:

"I season dat soup an' dem clams to suit my taste."

"But it doesn't suit ours."

"Can't help dat, sah."

"We want less pepper."

"Can't help dat."

"Do you refuse to make a change?"

"I sartinly do, sah. I 'lows nobody to tell me what to do."

We returned to the veranda and went into convention. Every minute added to our numerical strength, and in a quarter of an hour we numbered forty men. Then it was unanimously

"Resolved, That if the cook refuses to use less pepper we seek some other hotel."

Delegates were appointed to wait on the landlord, and he replied:

"Gentlemen, I am sorry, but I dare not interfere."

Forty rooms were vacated, forty trunks packed, and then mine host wilted. He called in the cook, and though that individual attempted to stand on his dignity, he had to wilt. By this time the excitement was intense, and had the forty gone they would have been followed by a hundred more. "Less pepper" was the watchword all over the house, and it meant a great deal to that landlord. We kicked, we saw, we conquered, and the next soup and clams exactly suited the popular taste. The cook is still the unseen power behind the throne, but he has slipped a cog, and no one is afraid of him any longer.—Detroit Free Press.

A Curious Coincidence.

They were crossing Clinton place in opposite directions, and as they met each halted and gave the other a good looking over.

"Well, by George!" exclaimed the elder after a moment; "but the idea that I should ever see them again!"

"What?"

"Ma trousers! The pair I sold in the Bowery just four weeks ago today to raise some guilders to satisfy me landlady of the third floor. I recognize them by the stripe, the cut, the contour, the mended rent across the left knee. Hail, old friend, but I do rejoice to see thee once again!"

"Say, fellar, where did ye git dat coat?" queried the other in reply. "I knowed him a whole block off, I did. Dat's de garment de kids presented me wid fur standin' before de Brooklyn Terror fur sixteen rounds before I went to sleep. Sold it two weeks ago down on Chatham to git backing fur my go wid de Jersey Bantam."

"'Tis a strange coincidence, me lord."

"Mebbe it's a sign I'm going to knock the Bantam out."

"And that I shall an engagement make at figures fat. Farewell, familiar legs."

"Tra-la, old rooster. If ye'll come up wid dat coat on I'll let ye into de scrap free of charge."—New York Sun.

He Had Traveled.

A young man with a great deal of hat and a small amount of grip sack came into the Third street depot on a train the other day and walking through to the hackstand he said to the driver of a vehicle:

"I want to go to the Wayne hotel."

"Yes, sir."

"The ordinance gives you fifty cents."

"It does."

"Here's your money. I've traveled a bit, I have, and I know what's what. Don't try any gum games on me."

"No sir—get right in."

The stranger entered the hack, the driver drove across the street and got down and opened the door, and as the stranger saw how he had fooled himself he looked as flat as chalk and muttered:

"Yes—I see—just across the street. I've traveled, I have, but I guess I was on the wrong train."—Detroit Free Press.

A Sad Parting.

"Promise me, James," said the South Chicago wife, sobbing, "that you will take good care of yourself and write to me every day."

"I will, Susan," exclaimed the husband, as he mastered his own emotion by a violent effort and embraced her tenderly. "You can never know how this separation, temporary though it may be, wrings my heart. But the physician's orders are imperative. He says nothing but a change of climate will save me. I must leave this latitude for the far north!"

And he tore himself away from his weeping wife and took the train for North Chicago.—Chicago Tribune.

Not His Usual Way.

Mrs. Blotterwick (reading)—Among those who paid their respects to the president was Hon. John Doubleface, of Buncombe. Can that be old Doubleface, our neighbor?

Blotterwick (who keeps a large store, dubiously)—Hardly possible. I never knew of his paying anything before.—Drake's Magazine.

Only Cholly Was.

Bessie—I hear you and Cholly are very thick.

Jennie—I'm sure I am not, but Cholly might be.—New York Evening Sun.

HOUSE OF ASSEMBLY.

The Report on the North Arm, Fraser River, Bridge Not Unanimous.

Debate on Amendment to the Constitution Act and Mineral Bill.

TUESDAY, April 15.

NORTH ARM BRIDGES.

Mr. Cunningham presented the following report:

The committee appointed to enquire into the causes of the carrying away of a portion of a bridge across the North Arm of the Fraser river and into all matters connected with the said bridge, beg to report as follows:

Your committee accompanied by Mr. Gore, surveyor general, representing the government, Mr. Muir, representing the San Francisco Bridge Co., and Mr. Kidd, ex-reeve, of Richmond municipality, proceeded by steamer on the 15th of February to the site of the said bridge for the purpose of inspecting the same and after a critical examination of the structure adjourned to the board of trade rooms, Vancouver, to examine witnesses under oath. After hearing all the evidence we find:

1. That the contract was let to the San Francisco Bridge Company for the sum of $27,800, who furnished their own plans, which were modified at the instance of the Richmond municipal council.

2. That the piles and specifications were faulty in relation to the size of the piers and that the bracing was insufficient.

3. That the piles were principally undersized and carelessly driven, the railing and sheeting inadequate and mechanical work was slighted to such an extent as to injure, in our opinion, one span of the bridge being carried away by the ice floe of not more than two inches in thickness.

4. That the government superintendent was careless and incompetent and in accepting the bridge from the contractor he misled the government, his reports being entirely at variance with the facts.

5. That the foreman of the San Francisco Bridge Company slighted the work both in piers and superstructure without the apparent knowledge of the company.

6. That the members of the municipal council of Richmond had full knowledge of the work being slighted but failed to take any steps for protection either of the municipality or the government, all of which, together with the evidence is respectfully submitted.

T. CUNNINGHAM, Chairman.
WM. LADNER,
A. HASLAM,
H. CROFT.

Mr. Orr agreed with some portions of the report but disagreed with it as a whole.

Hon. Mr. Beaven said the report was so severe that he would look for the resignation of the chief commissioner of lands and works to-morrow (laughter). The report stated that the plans and specifications were faulty and were modified by the Municipality of Richmond. If the plans were faulty he would like to know whose duty it was to amend them, if it were not the department of lands and works? The trouble was plainly due to the vicious practice of this government of allowing contractors to furnish their own plans, which was clearly a violation of the Public Works Act. The report went on to throw the blame on a subordinate something which any minister should not demean himself to do.

MINERALS.

The attorney-general moved the second reading of an amendment to the Mineral Act. One provision was as follows: If the claim applied for is situated within that portion of the province through which the Canadian Pacific Railway runs, and which has been granted or agreed to be granted to the Dominion government, and hereinafter referred to as the Railway Belt, the claimant must, together with his application, deposit the sum of one hundred and five dollars, which sum will be applied by the provincial government in obtaining a grant of the freehold from the Dominion government, but will not entitle the claim-holder to such freehold, unless he completes his title thereto, whilst he is the lawful holder of the claim, under the provisions of section 88 of this Act. The other amendments of the same character were read a second time.

CONSTITUTION ACT.

Hon. Mr. Robson asked leave to introduce an amendment to the Constitution Act.

Hon. Mr. Beaven said he had an amendment which he desired to move. He thought the House and the country were entitled to a little more consideration than it was proposed to show them by the government. When the House assembled on the 23rd of January it was stated in the speech from the throne that the increase in population had rendered redistribution of seats necessary, and it surely could not have taken all this time for the leader of the government and his colleagues to incubate a policy on this question. He believed the people of this province should have every opportunity to express themselves on this great question before it became law, and therefore moved that "to-morrow, the 16th of April," be struck out of the motion for the second reading, and "the 30th of April" substituted, which would allow only a very short time for the people of the province to become acquainted with the provisions of the bill.

Hon. Mr. Robson said if it were necessary to adjourn for two weeks to give the opposition time to work up an agitation against the bill, the government would consent to the amendment, but as they did not think this necessary they would oppose it.

Mr. Ladner considered that this amendment was in the interest of the whole province. He read a resolution recently passed at a meeting held in his district respecting this subject, which asked for representation according to taxation, according to population, and that the people of the district allowed to see copies of the bill before it became law. Unless this was done, unless the various districts were acted fairly with it, it was but human to expect that something unpleasant might occur.

Mr. Cunningham rose with a great deal of embarrassment. He could not deny that he felt a great deal of apprehension and although he had always given the government a liberal support, he proposed to vote for this amendment, unless the government could give the assurance that his constituents would be satisfied with the measure. He had intended to move a resolution of this nature if some one else had not done so, that the districts of the province should say whether this measure is satisfactory to them and if not they should have an opportunity to protest against it. All the people of his district wanted was representation by population, all other things being equal, and unless that was obtained unpleasant consequences were sure to follow.

Mr. Orr said the leader of the government had boasted some weeks ago that the administration had a policy and were afraid to bring it forward. Why had they delayed doing so till the present time, doing what was neither fair to the house nor the country?

Mr. Semlin said the supineness of the government had brought the house now, after being 87 days in session, face to face with this question. Proceeding he pointed out that last year the premier had declared that part of the government's policy was redistribution, and yet nothing was done. Looking at this from the government standpoint he looked upon it as one of the government mistakes and if he had been a supporter of the administration he would have insisted that it should have been brought down at the first opportunity. It was a gross injustice to the people to rush this question through without giving the people a chance to express themselves on it, and although his time was as important to him as any one, he would be quite willing to go home and return in two weeks time to wind up this business of the house (Applause.)

The Attorney-General said if the leader of the opposition had asked for two days, it would have been a more reasonable request than to place himself in hostility to the measure before he knew what it was. He did not see why the people should be consulted in this matter. It was for the house to deal with the question outside of any popular demonstration which might be raised for or against it.

Mr. Grant said it was useless for the government to attempt to excuse itself. They could never make the people of the province believe that they had not had had every opportunity to bring this matter before the house sooner. Perhaps the members of the government could not agree among themselves, but he thought it would have been a great deal more creditable if they had decided on some policy and placed it bravely before the country at the opening of the session.

The amendment was lost on the following division:

Ayes—Beaven, Ladner, Orr, Semlin, Grant, Cunningham—6.

Noes—Robson, Davie, Vernon, Fry, Duck, Anderson, Haslam, Thomson, Croft, Turner, Pooley, Baker, Mason, Cowan, Nason, Smith—16.

Second reading of the bill set down for Wednesday.

NOTICES OF MOTION.

Mr. Cunningham to move the adoption of the reports of the education and North Arm bridge committees.

EVENING SESSION.

Mr. Speaker took the chair at 8 o'clock.

Hon. Mr. Turner moved the house into committee of supply on the supplementary estimates.

Hon. Mr. Beaven thought the minister of finance had shown his want of tact and knowledge in first charging himself and the member for Cassiar with misrepresentation and then having to admit that the figures they gave were perfectly correct. That the minister of finance did bungle the estimates no one could deny. One had only to examine the tabulated statement presented to the house to prove this. The figures spoke for themselves and to go through the old figures of former administrations did not prove anything, although he had no doubt they could all be explained. But it was the present finance minister who was on trial and no one else. The large over expenditure was attributed to the Skeena expedition, but that was only a grand picnic which the minister of finance was enabled to attend, visit his cannery and have a good time which cost the country several thousand dollars. Proceeding he claimed that the finance minister had said nothing to merit a reply.

Hon. Mr. Robson—Honorable gentlemen opposite are fond of accusing this government of having no policy but he would state without fear of contradiction that no former government of British Columbia ever had so clear and well defined a policy as the present one. But what was the policy of the opposition? The opposition had a policy consisting of three planks: First, Sam Greer; second, J. N. Muir; third,

Mr. Semlin (Robson)

Hon. Mr. Robson (third) the education department (laughter). In respect to the first plank, the courts had shown that this claimant had not the shadow of grounds upon which to base his demands. (The honorable gentleman eyeing Mr. Beaven) Ah it is all very well to look through reports of committees of the House (laughter) but these are for the most part ex parte statements of the evidence coming before those committees. The second plank and third plank were considered together, Mr. Muir being described as a crank who imagined he had a grievance. The report of the committee was discussed at length and justification of the conduct of the education department found therein. He claimed that he had befriended Mr. Muir, had allowed insubordination further than he had any right to do and further than he would do again. He accused the opposition of laying the charge against him of trying to exchange the lands in the railway belt when as a matter of fact the government had nothing more to do with it than the man in the moon.

Mr. Semlin had not thought when he came into the house to-night that this sitting was to be selected for one grand attack on the opposition. In respect to the opposition platform, the inference which was sought to be conveyed was that Mr. Greer was a child of the opposition, but what was the fact? If the journals of the House were examined it would be found in every committee, which had attempted to give Mr. Greer a title there was a majority of government supporters. Did that look as if Mr. Greer was under the wing of the opposition? On the contrary the leader of the government in conversation with him (Mr. Semlin) admitted something quite different.

He (Mr. Semlin) warned the leader of the government on that occasion, that if he allowed a certain report, presented to the House, to be adopted it would give Mr. Greer's temporary claim and place the public at a disadvantage in respect to the purchase of those lots. What was the leader of the government's reply, "let the public take care of itself." Who then was it that fathered Mr. Greer's cause and allowed the public to be victimized? It was not the opposition.

It was a well established rule of the House that the names of parties outside of it should not be introduced into discussion because they had no opportunity to be heard in defence of themselves, yet this evening the leader of the government was found referring to parties outside of this House in what he has himself characterized in others as exceedingly cowardly.

Discussing the report of the committee he found the report carefully formed to suit the government and the education department with conclusions not justified by the evidence. The Provincial Secretary contradicted himself in regard to Mr. Muir at almost every breath. First, he referred to him as a "crank" and then he elaborated on the evil his insubordination was capable of doing, of the bad effect his influence would have on other teachers. If Mr. Muir was the vicious crank that he was pictured to be, it was not saying much for the intelligence of the teachers of the province that they would be influenced by him.

Resolution passed and Mr. Speaker left the chair.

In committee Mr. Ladner said that the government in making its gratuities should have remembered the brave women who had nursed the small-pox patients in New Westminster district.

The various items being passed the committee reported.

House adjourned till Wednesday.

Florida and Lemons.

Florida will soon be the greatest lemon growing country in the world. Lemons weighing a pound each are common in Florida, and along the banks of Caloosahatchie there is a single tree which bears 5,000 lemons, many of which weigh a pound each. But, except for show, such large lemons are of little value, as they are coarse grained and pulpy. The best lemons are grown on poor soil; and for that reason they are a very profitable crop. This country consumes more lemons every year than all other countries combined, and the consumption is constantly increasing.—New York Tribune.

Ancient History.

"Ah," sighed Brown, as he gazed into the face of his tiny son and heir, "think of the trouble before him! But," he continued, as he hurriedly reviewed the world's events, "there will be a powerful lot behind him, however."—Harper's Bazar.

A Safe Transaction.

DR. PRICE'S CREAM BAKING POWDER
MOST PERFECT MADE.
UNITED STATES DEPARTMENT OF AGRICULTURE.
Washington, D. C.
By an analysis of Dr. Price's Cream Baking Powder I find it carefully compounded, and I regard it as the best baking powder in the market in every respect.
PETER COLLIER,
Late Chemist of the United States Department of Agriculture.

Coughs, Colds, Croup.
Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.
Allen's Lung Balsam

CASTORIA
for Infants and Children.
"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M.D., 111 So. Oxford St., Brooklyn, N. Y.

A ROMANTIC WEDDING.

Met Friday—Engaged Sunday—Married Wednesday.

On the last day of March, the following advertisement appeared in the columns of THE TIMES, headed, "New advertisements:"

"Wanted—An industrious working man would like to correspond with a lady with a view to matrimony. Widow preferred. Please address by letter, Confidential, TIMES office."

As a result of this notice, the Rev. Dr. Reid will to-night unite two souls, "for better or for worse." There were many answers received, and after a short correspondence, a meeting was arranged between the advertiser and the lady, who will to-night become his wife. The courtship, brief as it was, promises to end most happy, the man being sober, industrious, and respected by those who know him, while the lady is good looking, clever and sensible.

OBJECTIONABLE LITERATURE.

Publications Containing Evil Advertisements Will be Seized.

The other day Port Inspector Young, of H. M. Customs, seized a lot of *Police News*, *Police Gazettes*, and *New York Illustrated News*, which were provided by a local barber for the delectation of his patrons who might be waiting for a shave. Inspector Young has since been reported as saying that he did not intend raiding any more exposers of this class of literature, but in spite of the published statement to that effect, Inspector Young will see that the law is enforced, and in consequence where the objectionable publications are exposed they will be seized, and if the circumstances warrant it, the parties responsible will be prosecuted.

To a TIMES reporter Inspector Young said to-day that while he did not desire to pose as a censor of the press, he thought it his duty to suppress the public exhibition of papers of the character spoken of above. Mr. Young does not pretend for a moment to assume that the illustrations of those papers and the letter press are exactly obscene, however questionable they may be, for were the pictures taken exception to, so would cigarette and tobacco advertisements, but what is most particularly objected to are the class of advertisements which are published in these papers. These advertisements are of a pernicious and questionable character, and should not be allowed to be placed before the public, and Inspector Young should have the thanks of every parent that he has made so decided a move in the matter.

New Building.

The firm of Sherbourne & Bishop, contractors, will commence to-morrow the erection of a spacious brick building for themselves on Courtenay street, opposite the Transfer stables. The property was bought by them a short time ago for the purpose of building thereon.

More Redistribution.

Thousands of sufferers from dyspepsia have tried, and been benefited by King's Dyspepsia Cure. We have distributed it broadcast through British Columbia; but there are still many, many sufferers from this distressing complaint who have not had a chance to try it, and for their benefit the distribution still goes on at John Teague Jr.'s popular drug store, 57 Yates street.

Baby Carriages.

A fine line of baby carriages and wagons, at Shore & Anderson's, 107 Douglas street.

Thermometer at Kellogg's.

Average temperature to-day.......... 62o

Sealer Arrives.

The sealing schooner Sapphire, Capt. Wm. Cox, arrived from a sealing cruise this morning. The catch was light, only 118 skins, and seals were reported very scarce.

The Legislature.

The House will die hard, and very probably another week will be consumed in the operation. It is quite improbable that adjournment will take place before the middle of next week.

Appointment.

The lieutenant governor of the province of Ontario has appointed Mr. J. Montague Leet of this city, a commissioner for taking affidavits at the city of Victoria, for British Columbia, to be used in the courts of Ontario. *

That Drawing.

The regular half-yearly drawing takes place June 20th, first prize, $100; second prize, $50; third, $25; fourth, $20; fifth, $15; sixth to twentieth, prizes, silverware. Apply to Russell, McDonald & Co., opposite the iron church, Douglas street, where tickets are now being *given* away.

Resigned.

Mr. Thos. Wood, keeper of the Marine Hospital situated across the harbor, has resigned the position after filling it for sixteen years with credit to all concerned. Mr. Wood and his estimable wife will now retire to a life of well earned ease, and will make their future residence in the vicinity of Spring Ridge.

Police Notes.

J. Haggerty, on remand, was again remanded for a week.

A Chinaman named Yuen Lee, charged with using opium without a medical certificate, was granted his third remand.

E. Clarke, charged with driving a horse over the sidewalk, did not appear, and was given till to-morrow to do so.

A Fine Boat.

There arrived on the Islander last night a very handsome pleasure row boat for Lieut.-Col. Holmes, D. A. G. It was built by Watts & Trott, of Vancouver, and to compare it with eastern manufacture is to say that it excels the latter. The boat is beautifully finished, very light and strong, and is capable of accommodating half a dozen people.

John Premier my Jo, John,
When we were first acquaint,
I used to think you honest, John,
But now I know you ain't;
For politics debased you, John,
And dragged you very low.
Your fate
I hate
To contemplate,
John Premier, my Jo.

P. O. Home.

The ladies' committee thankfully acknowledge the following donations in March: Table furniture, A. R. Brown & Co.; clothing and boots, Mrs. Christie, A. B. Erskine, Mrs. T. Tugwell, Mrs. T. M. Henderson, Mrs. Heathorn; vegetables and eggs, F. D., Mr. Andean; butter and milk, Mr. Jack; fruit, Mr. Burgess; dripping, Miss McCandlish; hair cutting, Mr. Paine; books, a friend (Burgoyne Bay); cakes and pies, Prof. Oliver.

Chemainus Mill.

The Chemainus saw-mill intend to put in their new machinery at once. Several mammoth boilers, fly wheels and other machinery have been lying on the C.P.N. wharf for some time. To-day preparations were begun to ship them. Spratt's Ark was to have come down from Vancouver to take the heavy machinery to Chemainus, no other suitable boat being at hand, but it was decided that the company's scows would answer the purpose.

Narrow Escape.

Word has reached the city of a narrow escape from being lost at sea by three sealers. The party belong to the sealing schooner Sea Lion, and were adrift for three days in a small open boat with a heavy sea running. A scarcity of food and exposure sorely tried their nerve, but luck was with them. The sealing schooner Theresa of this port hove in sight and the rescued men were taken aboard and finally transferred to their own vessel.

More Steamers.

The handsome steamer City of Kingston was visited last evening after her arrival by hundreds of visitors, and pronounced by all a gem of marine architecture. Capt. D. B. Jackson, who came over on her, says the new steamer City of Seattle, now building at Philadelphia, will be launched about July 1st, and brought around to these waters immediately and put on the Victoria-Tacoma route, alternating with the City of Kingston. Another new boat will be commenced this summer, to be called the City of Tacoma, and which will go into the Alaskan trade during the season of 1891.

Olympian vs. Kingston.

As to the relative speed of the steamers Olympian and City of Kingston, much has been said by outsiders on an interesting subject. In conversation last evening with Capt. Roberts he acknowledges that the Olympian is the faster steamer under the following conditions: Providing the Olympian burns five tons an hour more coal than the Kingston, which obtains her best speed on one ton consumed per hour, the Olympian then can do the faster running. Otherwise, there is no difference in speed. Captain Roberts is very proud of his fine, handsome vessel.

Mr. Abbott's Visit.

It is understood that Mr. H. Abbott's mission to Montreal is to confer with Mr. Van Horne and others, and arrange for the completion of the Mission bridge and the construction of the line of railway south to the boundary, also for the immediate commencement of the work on the Nelson and Sproat's Landing division of the C. P. R., as well as the prosecution of surveying work in the interior along the Columbia south from Revelstoke. The road-bed on the government division and the bridges and culverts will likewise be overhauled, and with this end in view several thousand barrels of cement have already arrived or are en route with which to accomplish the work, which will be of the most permanent character.

Supreme Court.

Prevost vs. J. J. Rutledge, A. H. Owen and John Gilmore—This action came up before the Chief Justice, Sir Matthew Baillie Begbie, and a special jury. The question involved was shortly whether the defendant Owen was rightfully the purchaser of goods, etc., of Marks, Rutledge & Co., a firm formerly carrying on business at Nicola, and which goods were sold under execution by the sheriff, or whether Owen was not there as such purchaser as a mere representative of Rutledge and Gilmore. The plaintiff as receiver of the estate of Marks, Rutledge & Co. attacked the genuiness of the sale to the defendant, Owen, and alleged fraud. Both defendants' counter claimed for damages $5000 as against the receiver. The jury found that there was fraud but disagreed as to Owen's participation therein. They found farther that the plaintiff as receiver was perfectly justified in his action in bringing this suit for the protection of the creditors, whose interests it was his duty to protect. Messrs. Eberts & Taylor appeared for the plaintiff, Mr. Charles Wilson and Messrs. Yates and Jay, and Mr. E. V. Bodwell, for defendant Gilmore. The jury disagreed upon the question of damages. Leave was given any of the parties to move for judgment and this we understand will shortly be done.

REDISTRIBUTION OF SEATS.

The Boundaries of the Different Districts and the Members.

A bill to amend the Constitution Act was laid before the assembly yesterday shortly before 6 o'clock. The bill provides for an increase of the membership of the House from 27 to 33, the number of districts being increased from 13 to 18. The new districts are Alberni, East Kootenay, Vancouver City, Nanaimo city and the Islands electoral district.

New Westminster district shall return three members. The boundaries of the district are the 49th parallel on the south and the 54th parallel on the north; the 124th meridian of west longitude on the east and the coast on the west. Those portions described as Vancouver and New Westminster district are excepted.

Westminster city shall return one member. The boundaries of the electoral district conform nearly to those of the municipality.

Vancouver city shall return two members. The boundaries of the district are nearly those of the city.

Yale electoral district shall return three members. The district is bounded on the east by West Kootenay district, on the north by Lillooet, on the west by Westminster district, on the south by the southern boundary of the province.

Lillooet District shall return two members. Bounded on the east by West Kootenay, on the north by the 52nd parallel, on the west by the 124th meridian, on the south by Yale.

West Kootenay shall return one member. Boundaries on the west by Yale and Lillooet districts, on the north by Cariboo, on the east by the dividing ridge of the Selkirk range to Roger's Pass, thence southerly following the watershed nearest to the westward of the upper Kootenay and Moyie rivers to the 49th parallel, thence west.

East Kootenay shall return one member. Boundaries on the west by the West Kootenay District, on the east by the eastern boundary of the province, on the south by the southern boundary, on the north by the Cariboo Electoral District.

Cariboo will continue to return three members. Its boundaries are all that district bounded on the west by the 124 meridian, on the south by the 52nd parallel, on the southeast by the Kootenay Electoral District, on the east by the 118th meridian to the summit of the Rocky mountains and by the 120 meridian of the eastern boundary of the province, on the north by the 60th parallel.

Cassiar Electoral District shall return one member. Boundaries on the east by the western boundary of Cariboo, on the north by the 60th parallel, on the south by the 54th parallel, on the west by Alaska and the Pacific ocean.

Victoria city shall return four members. Boundaries, that piece and parcel of land described in the letters patent.

Victoria electoral district shall return two members. This district shall comprise Victoria, Lake, North Saanich and South Saanich districts.

Esquimalt district shall return two members. Boundaries, from a point on the west shore of Saanich Inlet to the west coast of Vancouver Island, on the south and east of the Straits of Fuca and Victoria district.

Cowichan district shall return two members. Boundaries, from a point on the west shore of Saanich Inlet to a point on Stuart Channel, thence west to a point on Alberni canal, thence southerly to a point five miles west of Nitinat Lake, thence easterly along the boundary of Esquimalt district.

The Island electoral district shall comprise Kuper, Reid, Galiano, Salt Spring, Mayne, Pender, Samuel, Saturna, Tumbo, Moresby, Portland, Prevost and Narrow islands, together with all the islets adjacent thereto, and will return one member.

Nanaimo city district shall return one member. Boundaries, that tract of land comprised within the municipal limits.

Nanaimo electoral district shall return two members. Boundaries, on the south by Cowichan district, north from Alberni canal to Cameron lake, east to Qualicum river, and southerly along the coast including Gabriola, Valdez, Thetis and De Courcey islands.

Alberni district shall return one member. Boundaries, on the east by Cowichan and Nanaimo districts, northwestern extreme by Nootka Sound, thence south along the coast to Alberni canal.

Comox electoral district shall return one member. Boundaries, all that portion of Vancouver Island north of Alberni district.

At the Theatre.

The attraction to-night at the Victoria theatre will be the celebrated Fisk Jubilee Singers. They come extensively recommended and have sung before distinguished personages. To-night will be the only night to hear them. The price of admission is put down to 50 cents and 75 cents.

What Will the World Say?

We await with bated breath the receipt of the next issue of the Vancouver *World*, the government organ which is controlled by no man. The man who stood between the devil and the deep sea was in a paradise compared with the situation of our esteemed contemporary on the redistribution question.

Dropped Dead.

There was great chattering among the Celestials of Cormorant street this afternoon. All this was caused by the sudden death of a repulsive looking Chinaman, who a few minutes before staggering and dropping to the sidewalk, had been to see a Chinese doctor and had taken medicine with dire effect. At least, this was the version explained by an intelligent countryman of the deceased. The body was laid on a verandah and covered with the dead man's few effects and left in charge of two policemen.

Ask your grocer for a box of Pendray's Electric Soap, twenty bars for one dollar.

Seattle's Fire Boat.

The Seattle Dry Dock & Shipbuilding Company, which secured the contract for the construction of the Seattle fireboat, have begun building the boat, and will push the work so as to have her completed within the time specified—120 working days. The fireboat is to have four berths along the water front, and pipe lines will be laid through the main streets so that streams from the fireboat can be forced through them to all parts of the business centre of the city.

Passengers Arriving

A DANGER SIGNAL.

A Cold in the Head may be aptly termed a danger signal, warning you that if neglected that dangerous and disagreeable disease, Catarrh, is sure to follow, perhaps leading to Consumption and the grave. At no season of the year is Cold in the Head more prevalent than during the Spring months, and at no season do the people of this county suffer more generally from troubles; but apply NASAL BALM, the only remedy that will give instant relief and effect a thorough cure. The following testimonials from among thousands in our possession bear witness to its sterling merit.

Alex. Burns, Sudbury, Ont., says: I may state that I have been afflicted with Catarrh seven or eight years, and it was attended by consequent symptoms such as foul breath, constant dropping into the throat, hawking and spitting, partial deafness, ringing in the ears and sickening pains in the head directly over either eye. I have used powders and douches, but all to no effect, the only result arising from the use of such was temporary relief, followed by the nasal symptoms in a more aggravated form. The results arising from the use of Nasal Balm: Sweet breath, stoppage of the droppings into the throat, (consequently less hawking and spitting), clearness of hearing, and not once since I began its use have I had pain in the head. In fact it is my opinion that a careful and persistent use of the Balm will effect a cure in the worst case of Catarrh.

W. H. Shelp, of Treherne, Manitoba, says: I am delighted to be in a position to say that NASAL BALM is helping me wonderfully. IT STEADILY CLEARED OUT THE HEAD AND STOPPED THE DISAGREEABLE DROPPINGS INTO THE THROAT. For some time I have suffered severely from catarrhal headache. NASAL BALM has removed every trace of it. I have every confidence in its completely curing me. It is deserving of all you claim for it, "A Positive Cure for Catarrh. Easy and Pleasant to use." I hope it will soon be for sale in every town and village in Manitoba.

D. Derbyshire, Mayor of Brockville and President of the Ontario Creamery Association, says: Nasal Balm beats the world for Catarrh and Cold in the Head. In my own case it effected relief from the first application.

Nasal Balm
Instantly Relieves
Cold in Head

J. H. A. Smith, of Spallumcheen, B. C. says: I have been using your Nasal Balm for some time, with the most gratifying results. My case of catarrh was a very bad one, but the Nasal Balm has cleared my head, stopped the droppings into my throat, in fact has made me feel smarter and better in every way. I look upon Nasal Balm as a perfect remedy.

L. D. Dion, Dept. Railways and Canals, Ottawa, says: I am very glad to give you to-day the testimony that Nasal Balm has completely cured my catarrh, from which I suffered for nearly three years.

Nasal Balm
Positively Cures
Catarrh

Isaac Waterman, Imperial Oil Co', Petrolia, Ont., says: Nasal Balm has given me the most perfect satisfaction of any medicine I ever used for Cold in the Head. I found it easy to use, quick in giving relief and effecting a complete cure in a couple of hours.

Mr. John H. Adams, merchant, Brantford, says: I have used Nasal Balm for Catarrh, and found it to be a certain cure.

If Nasal Balm is not kept in stock by your dealers, it will be sent post paid on receipt of price (50 cents for small and $1 for large size bottles) by addressing

Fulford & Co., Brockville, Ont.

THE WESTSIDE,
GOVERNMENT STREET, VICTORIA, B. C.

We believe Truth is the Corner Stone

To-day of permanently profitable advertising. Whatever statements are made must be backed up by merit.

It is useless to say we have goods at such and such a price unless we really have them.

It is no good to say they are cheap unless we are sure such is the fact.

The experience gained during a long period in the Dry Goods business, together with ample facilities, enables us to sell first-class goods as low, if not lower, than any other house (we make no exception whatever).

We are convinced that our stock for the Spring exceeds any heretofore offered, and, confident of our ability to give satisfaction, we respectfully solicit your patronage.

J. HUTCHESON & CO.

THE WESTSIDE.

Orders taken by LANGLEY & CO. mar19-3m

Our Spring Opening.

The time has come when you must think about Spring wear, and we want you to connect those thoughts with OUR STOCK and STORE. Our preparations for Spring business have been made on a very extensive scale with a view to offering buyers the utmost latitude of choice in styles and prices. We are now about to submit the stock, which represents our taste and judgment, to the critical test of public opinion in our Spring Opening, and hope to hear your voice in the general verdict. You will find our stock adequately representative of the best the market affords, both in materials and styles, and we guarantee our prices to be as low in every case as the quality of our goods will warrant. Price must always be considered in relation to quality, and the final test of quality is actual wear. We are confident that the test of wear will prove the actual worth of the goods we offer. Before you make your Spring Purchases we respectfully ask an examination of our goods. We shall not importune any one to buy, feeling that if our stock will not make buyers, nothing we can say will win us custom. A half hour spent in looking over our assortment of goods will give you a fair idea of the styles that will be popular in this Spring season, and we can only hope it will be as much pleasure for you to see as for us to show our goods.

Men's, Youths' and Boys' Clothing, etc.

CAMERON,
55 Johnson Street.

March April May

Are the best months in which to purify your blood. During the winter months the blood becomes thin and impure, the body becomes weak and tired, the appetite may be lost, and just now the system craves the aid of a reliable medicine. Langley's Sarsaparilla is peculiarly adapted to purify and enrich the blood, to create a good appetite and to overcome that tired feeling. It increases in popularity every year.

Langley's Sarsaparilla

Is the ideal spring medicine. It rouses the kidneys and liver, tones the digestive organs, creates an appetite, purifies and vitalizes the impure and sluggish blood, cures the headache and overcomes all the prostrating effects of that tired feeling.

The Spring Medicine

At the coming of spring the blood should be purified, as impurities which have been accumulating for months, or even years, are liable to manifest themselves and seriously affect the health. Langley's Sarsaparilla is undoubtedly the best blood purifier. It expels every taint of impurity, drives out scrofulous humors and germs of disease and gives to the blood the quality and tone essential to good health.
